ISTRUZIONI DI SICUREZZA

1. Il montaggio improprio del mobile può causare incidenti e lesioni. Il mobile deve essere assemblato solo da persone competenti
2. Esamina la struttura del muro. Utilizzare i tasselli e i ganci appropriati per il proprio tipo di muro.
3. Non dovrebbero esserci cavi elettrici, linee di alimentazione o condotte di smaltimento che attraversano l'area di installazione. La sezione del muro in cui deve essere installato il mobile deve essere a livello.
4. Per evitare il ribaltamento o la caduta, fissare l'elemento del mobile (compresi i tipi di supporto) alla parete utilizzando l'attacco a parete.
5. Il collegamento dell'alimentazione deve essere eseguito solo da un tecnico qualificato.
6. In caso di domande, consultare un tecnico qualificato.
